EXPERTISE

Field

Mechanical Engineering

Expertise

Design & Manufacturing
Engineering

Specialization

Solid Modeling Design
Tooling
Rotating Equipments

RESEARCH CONTRIBUTION & ACHIEVEMENT

My research interest is focused on the areas of solid modeling of products especially in rotating equipments. My recent research work focuses on the biodegradable materials for plastic made from organic sources. This includes research interests in the design, development and studies of the biodegradable materials. I also had been involved with design and manufacturing of special tools for the oil and gas industry as well as for the electrical components.
