EXPERTISE

Field

Polymer Engineering Technology

Expertise

Polymer Nanocomposites

Specialization

Polymer Melt and Solution Blending
Polymer Nanocomposites
Polymer Engineering Technology

RESEARCH CONTRIBUTION & ACHIEVEMENT

My research interest is focused on the areas of polymer nanocomposites and engineering technology of polymer. My recent research work focuses on the biodegradable polymer blending with carbon-based nanofiller. This includes research interests in the blending method by melt and solution techniques and analysis of blended nanocomposites in terms of mechanical and thermal properties. I have also been appointed as a reviewer/editor for the Journal of Chemical Engineering and Material Sciences (JCEMS) (Academic Journals), Scientific Research and Essays (JCEMS), Journal of Macromolecular (Springer), Polymer Bulletin (Springer), Journal of Desalination and Water Treatment (Desalination Publications) and Bentham Science Journal (Bentham Science).
