## EXPERTISE

### Field

Programming  
Project Management

### Expertise

Image Processing  
Programming

### Specialization

Image Processing  
Programming  
Project Management

## EDUCATION

Bach. in Information  
Technology Software  
Engineering (Hons)  
(University Industry  
Selangor)

MSc. in Information  
Technology Project  
Management  
(University  
Selangor)

PhD. in Computer  
Science (UNISZA)  
On Going

## RESEARCH CONTRIBUTION & ACHIEVEMENT

My research interest is focused on the image processing using algorithm, Voice Recognition using Mat Lab and also related to Project Management. My current research work focuses on the Design and Implementing of Automatic Number Plate Recognition on QR CODE Platform for Tourist. This research focus on the vehicle from Thailand and Singapore that using different size and design for plate number. This includes research interests in the design, development and implement tools such as QR CODE to apply for the PDRM AND JPJ in Malaysia.
