EXPERTISE

Field

Chemical Sciences

Expertise

Organic & Inorganic Synthesis,
Biomaterial.

Specialization

Organic Synthesis
Inorganic Synthesis
Biomaterial
Petroleum Technology
Safety and Health

EDUCATION

Bachelor in (Sciences)
Chemical Sciences

Master in (Sciences)
Chemical Sciences

RESEARCH CONTRIBUTION & ACHIEVEMENT

My research interest is focused on the areas of chemical sciences. My research involves analytical chemistry, organic and inorganic synthesis field. My recent research work focuses on the reuse of bio material product. This include research interests in polymer electrolytes, biodiesel application and also health and beauty care products. I have written a few number of papers in international journal regarding my research interest. In addition, I also won a gold medal National Research and Innovation Competition (NRIC 17) and silver award in International Technology Exhibition (ITEX 17) and International Competition and Innovation Exhibition (ICompEx 17).
