EXPERTISE

Field

Computer Science

Expertise

Intelligent Computing
Software Engineering

Specialization

Data Mining
Pattern Recognition
Software Quality

RESEARCH CONTRIBUTION & ACHIEVEMENT

My research interest is focused on the areas of data mining and pattern recognition in Intelligent Computing areas. In addition, my research interest also include the areas of software quality in software engineering areas on educational book and educational application. My recent research work focuses on the data mining particularly in detection of abnormal in heart beat data. This includes research interests in the design and development of method and application using machine learning technique.
